Supporting Adults with Learning Difficulties

Our specialist care in the community extends to adults with Learning Disabilities. We deliver individualised services to people with a range of disabilities in the community to make a positive impact on the life of each person we support.

We can tailor individual support plans to ensure you are at the centre of the planning process, offering choice, independence and support in daily and life decisions. Our service promotes social inclusion, supports you in running your own home, encourages you to achieve your potential and work towards your goals.

Support can be from half an hour a day to a full 24 hour live in service which can include domestic duties as well as personal care.

Here are some ways we can support you:

- Assist with personal care, medication, domestic tasks and social activities
- Support you with a smooth transition from residential care to Supported Living or to Independent Living, by assisting with completing Housing Benefit, income support forms, arranging utility connections and support with setting up direct debits
- Budget management for furniture, food and social expenditure

■ One-to-one support to assist in developing independence within the local community such as exploring local groups, churches, day activities and the voluntary sector

■ Supporting you to develop a C.V and assisting with the hunt for paid work

Our experienced team will work with you to develop your own Person Centred Plan that will maximise and develop your skills. You are here to live a full and active life and we are here to assist you.

Caring for you at home 24 hours a day nationwide

“I have worked with adults with learning disabilities for 5 years and can wholeheartedly say that, with support, most clients can exceed their goals and dreams to live an independent lifestyle.

Getting support with practical matters such as financial management has a positive effect through all aspects of a client’s life and I have seen their lives change dramatically. Our experience and training at Cheriton Link means that we can now offer this service to adults that live in the Wiltshire area. Don’t hesitate to call and ask to speak to me.”
